EDUCATION

JMS	2014 - 2015
SCIENCE 12TH	Dehradun
SRM UNIVERSITY	2016 - 2020
COMPUTER SCIENCE BTECH	Chennai
MIT , MANIPAL UNIVERSITY	2022 - 2024
COMPUTER SCIENCE MTECH	Manipal

SKILLS

PROGRAMMING LANGUAGES	C++ , Java Script , C , Html , Css
LIBRARIES/FRAMEWORKS	React , Redux , Tailwind, React Router Dom
TOOLS / PLATFORMS	Firebase , Github

PROJECTS / OPEN-SOURCE

NETFLIX-GPT | LINK   React Js , Redux , Firebase , TMDB APIs , gpt 3.5 turbo Api , Tailwind,React-Router Dom

In this project I have tried to make a Netflix like interface , used firebase for storing all the users data , TMDB Api's for fetching movie/TV shows lists and used gpt 3.5 turbo Api to act as a movie/TV shows recommendation system which passes the data to TMDB Api giving us the movies/TV shows lists.

SHOE- STORE | LINK   React Js , Redux , Tailwind , Vite, Loadlash , Splide, React Hero Icons , React Hero Toast

This is a shoe store where I explored various react libraries to make it visually appealing.

YOUTUBE - CLONE | LINK   React-Js , Redux , Youtube APIs ,React-Router Dom

In this project I have used live YouTube Api to build the interface , I have also build the search suggestions as we type in search bar using Youtube search APIs and used Deboucing for limiting Api calls , as well as have build a live chat system using API Polling and nested comments using recursion.

FOOD - ORDER - APP | LINK   React Js , Redux , Tailwind , Swiggy Api , React-Router Dom

In this project I have used live Swiggy Live Api to fetch data, the main objective was to able to handle the data as Swiggy Api data structure is quite complex.
